**NANYANG
TECHNOLOGICAL
UNIVERSITY**

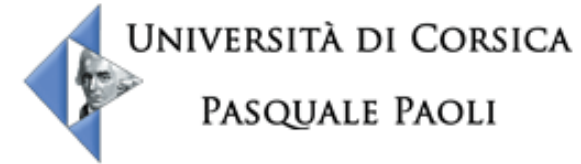

UNIVERSITÀ DI CORSICA
PASQUALE PAOLI

Warm acknowledgements to

✓ **Our host: Université de Corse**

Dominique Grandjean & Philippe Poggi

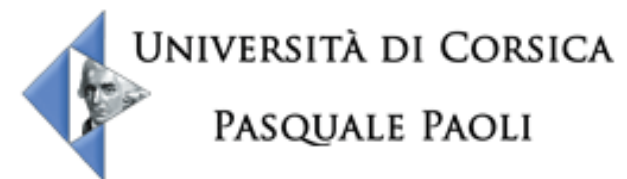

✓ **Our guests coming from Singapore**

✓ **All the speakers**

✓ **Financial support from**

SINERGIE: French-SINGaporean network on renewable enERGIEs

- ✓ has replaced **CNERGIE** (Synergie for **CNRS-NTU-Renewable EnERGIE**)
- ✓ will be created for 4 years: official signature January 2017 (target).
Official signature should be January 2017 (Singapore or France?)

Purpose of a GdRI:

- ✓ Organizing conferences, seminars, workshops, thematic schools...
Facilitating exchanges of researchers. **Joint publications expected!**
- ✓ Fostering the generation of formal collaborations (eg research projects supported by national & international funding agencies: ANR, NRF,...); however, such collaborations will be conducted outside of the network and require permission of the institutions involved & signature of an agreement defining the IP rules.

Cooperation involving intellectual properties issues is outside of the Network objective. No confidential information should be exchanged in that framework

Highlights of the GdRI 1st meeting

- About 75 attendees (but from > 60/day to < 30/day)
 - *≈ 30 participants from Singapore*
 - *≈ 15 Master/PhD students/Postdoctoral fellows (only)*
- About 30 lectures
 - *15 lectures during the summer school (very interactive!)*
 - *14 lectures during the review of the 5 GdRI topics*

→ *Presentations will be made available soon for participants*

Speakers, please provide your presentation before leaving or send it to:
alain.dollet@cncrs-dir.fr

- **A nice visit to Myrte platforms (45 visitors)**
- **Fruitfull discussions and ideas during coffee breaks and lunches**

Your opinion and suggestions from this 1st experience

Please, fill the survey!

✓ Did you enjoy the event (network review/summer school)?

Your suggestions for improving the next event (NB: will be organized in Singapore!)

Date? Type of event (summer school, workshop...), topics (Energy Storage?)

Any questions on the GdRI?

- on the kind of support it can (or cannot) provide?

- ??

What should we do now?

Start cooperation:

Joint publications, student exchanges

In parallel: Start joint supervisions, submit joint research projects
